

## DOSING SET FOR FRAGRANCE DOSING

---

Dosing set part no. 12596 consisting of non-return valve (dosing valve VA 3/8" - 4 x 1) stainless steel and dosing tube (3 m tube PTFE 4 x 1) for a safe connection of the aroma pump with the steam tube. The non-return valve eases necessary maintenance of the pump, as the steam generator does not have to be switched-off in this case.
