

PURUVESI Sauna wood cleaner

For cleaning or preparing for treatment with OULUJÄRVI or INARIJÄRVI

PURUVESI is a sauna wood cleaner for sauna benches and other untreated wooden surfaces. Surfaces cleaned with PURUVESI are optimally prepared for subsequent treatment with OULUJÄRVI sauna wood preservative and treatment and can thus be permanently protected against staining.

Application

- PURUVESI should be applied undiluted and evenly to the surfaces to be cleaned.
- After 30 seconds, stains can be removed with a melamine resin pad or similar product.
- Afterwards, wipe and dry the surfaces with clean water and a sponge. The working temperature should not be lower than +5°C.
- Do not use in direct sunlight or on hot surfaces.

Before
cleaning with
PURUVESI

After
cleaning with
PURUVESI

- For cleaning of all wooden surfaces in the sauna and wellness area
